Empathy Map Template

This empathy map represents the perspective of a customer applying for a loan. It helps understand the applicant's needs, concerns, actions, and emotions so that the machine learning system can provide faster and fairer approval decisions.

SAYS	THINKS
• I need this loan approved to buy my home. • The paperwork is extremely complex. • I want a transparent credit assessment.	• Will my lack of past credit history cause a rejection? • Is my coapplicant's income sufficient to cover the loan? • How long will this evaluation take?
DOES	FEELS
• Fills out online application details (dependents, education, income, property area). • Submits loan amount requests. • Checks application status regularly.	• Stressed and anxious during the verification delay. • Frustrated by opaque underwriting rules. • Relieved and satisfied when the loan is approved.
